

## Is Dutch Shell Oil Co. Coming to Alberta?

### Strong British Company Reported to Have Plans for Developing Vast Oil Holdings

For some weeks rumors have been in circulation that the Royal Dutch Shell Co., have arranged with the Dominion Government for the privilege of developing the oil lands lying in the Wainwright Buffalo Park. It is also rumored that this company has other vast holdings in the Central Alberta fields centering around Wainwright, on which they have drilling privileges and on which they have secured complete knowledge as to the underlying formations. It is known that for the past several years, geologists and drillers have been investigating different wells that have been drilled and while many of these men reported that they were working in the interests of some American concerns, nothing further has ever been heard from them and it is now reported on very good authority that at least some of these men were working for

English capital. It has been further reported that large shipments of drilling, pipe line and refinery equipment had been made from the Old Country and that active operations would be commenced as soon as these shipments have arrived. It is now sixteen years since the first oil excitement was started around Irma and since then a number of wells have been drilled practically every one of which has produced evidence of immense oil reservoirs, with very little interest being shown after this knowledge was obtained. Overproduction has been the excuse given for the lack of interest and now with the immense increase of tractors and automobiles in the west it may be that the big producers are beginning to look for production that will be near a ready market. Here's hoping that the many rumors will shortly be confirmed and that Central Alberta will at least be producing the oil and gasoline that will be used in her own territory.

### HEADACHES

Pain is not a disease. It is generally a signal that something is wrong, that some condition requires attention. Headache is a common symptom and occurs in almost every illness. It is a warning, in many cases, that there is some poisoning going on somewhere in the body, poisoning, such as comes from the activity of the germs of disease or as a result of the failure of the body to rid itself of the waste of body activity.

Eyestrain is a common cause of headache. It is not that the individual is unable to see, but rather that on account of some abnormal condition of the eye, or over-use of the eyes, a strain is thrown upon them, and headache frequently results.

Over-indulgence in food, beverages, or tobacco, living in an unventilated room, emotional upsets, uterine disease, and many other conditions can be placed on the list of causes of headache.

It is not suggested that it is necessary or advisable to call the doctor for every headache. The cause of the headache may be very plain to the sufferer, and he knows that the cure, and prevention of other headaches depend upon his avoiding the excess of indiscretion which is the cause.

Frequent headaches, usually severe headaches, are not to be disregarded. It is a mistake to relieve the headache by drugs and to go on feeling that all is well. Of course, relief from pain is desired, but to secure release from headaches and then disregard them is about as sensible a procedure as to blow out a red lamp which acts as a danger signal, and go ahead as if the danger itself had been removed.

Headaches are a signal. Their cause should be sought for and, when found, treatment directed towards the cause, not the symptom. Nature has arranged that we be given warnings of impending or actual disease in many conditions. One of the most common danger signals which nature uses is headache. There are various types of headaches, and their location, their severity and their time of occurrence all have a meaning which help in determining the underlying cause which must be dealt with, not only to prevent the recurrence of headaches, but to correct diseased conditions and to secure a normal, healthy existence.

Questions concerning Health, addressed to the Canadian Medical Association, 184 College St., Toronto, will be answered personally by letter.

## WANT ADS

FOR SALE—Good Willow Posts.  
C. T. Hill and Son, Phone 206, Irma.

FOR SALE—Artie Sweet Clover Seed for sale.—M. D. Askin, Phone 210.

SETTING EGGS—Dark Barred Rock eggs for setting, \$1.00. Exhibition and laying strain.—W. Cole, Irma.

FARM FOR SALE—I will sell my half section at Hawkins Station to best bidder. 304 acres west half of Section 19-45-8. Splendid mixed farming proposition. Some could be cropped this year. Apply first to Chas. Wilbraham, Irma.  
—Geo. Wilbraham.

FOR SALE—Dark Barred Rock Roosters, exhibition and laying strains.—W. Cole, Irma. 15-25c

FOR SALE—White Blossom Sweet Clover Seed, germination test 83 per cent. Price \$9.00 per hundred lbs. G. A. Arnold, Phone 709, Irma, Alta.

FOR SALE—600 lbs. Artie Sweet Clover Seed, J. C. McLean, Phone 106, Irma, Alberta.

FOR SALE—Good Clean Banner Oats, grown on breaking from registered seed. Also have other good clean oats for sale.—W. R. Askin, Phone 317, Irma, Alta. 15-20c

FOR RENT—N. W. Quarter of Section 36-46-9-W4. 100 acres broken, all to be cropped. Terms 1-3 crop clear to owner. Tenant to pay all expenses including seed.

Apply W. Masson, Agent, Irma.

FOR SALE—Seed and Feed Oats. Seed 60c cleaned; feed 45c. Germination 94 per cent.—G. A. Arnold, Irma, Alta.

FOR SALE—Drop Side Winnipeg Cot and Mattress, nearly new, also good two burner oil stove. Mrs. A. Knudson, Irma, Alberta. 19-21p.

FOR SALE—1000 lbs Artie Sweet Clover seed, J. L. Saville, Irma, Alta. 19 T.S.

TO RENT—Good farm to rent on crop rent. 120 acres broke, good buildings and good well. East half 36-46-9-W4th—Apply J. H. Elliott, Irma, Alta. 21-TS

### CARD OF THANKS

We wish to thank our many friends for their kind assistance and sympathy also for the lovely flowers presented during our recent bereavement.

Signed: Mrs. T. Rome, Grace and Allison.

### NOTICE

The Irma Robekah Lodge propose holding a sale of home cooking and serving lunch afternoon and night on Saturday, May 3rd.

Now is the time of the year to advertise for those stray horses and cattle. A small ad in this paper will help you.

## CHURCH NOTICES AND ACTIVITIES

### IRMA UNITED CHURCH

Rev. John R. Gesso, M.A., B.D.,  
Pastor

#### SUNDAY

Public School at 11 a.m.

Sunday Worship at 8 p.m.

Alternate Sundays

Albert School at 11 a.m.

Strawberry Plains at 11 a.m.

Alma Mater at 3 p.m.

Rosebery at 3 p.m.

Trail Rangers on Monday 7:30 p.m.

C. G. I. T. Tuesday 7:30 p.m.

Mid-week Service Wednesday 8 p.m.

Ladies Aid, 2nd and 4th Thursdays.

W. M. S., every third Thursday.

Services next Sunday will be at Strawberry Plains, Rosebery and Irma.

It has been arranged that the Independent Order of Oddfellows will attend divine worship next Sunday evening at 8 p.m. the sermon will be of a special nature.

The Easter services were remarkably well attended at all three appointments. These services were made more enjoyable by the visit of Mrs. F. T. Cook who sang at all points. At Alma Mater, a number of special items were contributed by the children who were prepared by Mrs. Renwick, by Misses Archibald and Renwick, and by the Gesso girls. The school house was beautifully decorated for the occasion. In town the Choir sang two anthems, and a group of girls from Alma Mater gave a little pageant, entitled "Sweet Violets."

The special Easter service of the W. M. S. was held on Monday at Mrs. J. Fenton's residence. A very large number of ladies together with a number of men were present to take part in the proceedings which were of a very inspiring nature. The program was of a varied nature, but all the items contributed to the aim of deepening the spiritual life. The thankoffering amounted to \$35.00.

The meeting of the Women's Institute will be held at the home of Mrs. Robertson, on Thursday, May 1st. Roll Call: "My Superstition."

Mrs. Barber and Mrs. Milburn will act as hostesses. Meeting starting sharp at 2:30. Everybody invited.

#### SUNDAY SCHOOL NEWS

Next Sunday will be Birthday Sunday in the United Church School. All those having birthdays in April are reminded to bring their birthday offering.

Two weeks ago we had a record attendance for 1930. There were 85 present. Last Sunday there were 84. There seems a hope that we might touch the hundred mark by Mothers' Day, the second Sunday in May, if not before.

#### TENNIS NOTES

Both tennis courts are now in good condition. The new court is reported as being extra good, and the old one, since Doc and the boys oiled it, is perhaps better than the new one.

The executive are putting on a tournament early in May. Get on the court and get the feel of the racket before tournament play commences. Enough players have already signed the members' roll to make things lively. The following is the list to date:

Mr. and Mrs. H. Jones,  
Mr. and Mrs. R. White,  
Mr. and Mrs. R. McFarland,  
Mrs. I. Knudson,  
Miss L. Ambler,  
Mrs. S. Johnson,  
Mrs. P. Fletcher,  
Dr. C. Greenberg, Messrs. Frickelton, Reeds, and Sheppard, Ray Locke and John Schonert.

### SILVER LANE SCHOOL REPORT

Grade VIII.—Garnet Bergquist 81, Stella Latham 73.

Grade VII.—Marion Bergquist 66.

Grade VI.—Peter Harvey 85, Iola Bronson 79.

Grade V.—Gordon Harvey 73, Basil Bergquist 70.

Grade III.—Marie Latham 93, Norma Bronson 88, Buster Berreth 71, Floyd Bronson 55.

Grade I, Sr.—Harvey Bergquist 100, Opal Bergquist 96, Violet Harvey 93, Neil Berreth 80, Pearl Harvey 90, Irving Bell 78.

Grade I, Jr.—Irene Bronson, Jean Reid, Royle Bronson, Robert Bell.

L. Sanders, Teacher.

## ANOTHER PIONEER PASSED BEYOND

Monday death called another old timer of the Irma-Wainwright district, when Reginald Goulding, who has been farming about 15 miles N. E. of Irma, since 1906, passed away at the Wainwright Municipal hospital after everything possible had been done to combat the dread disease "pneumonia" of which he had had several attacks at former times.

The late Mr. Goulding was born in Kent County, England, 56 years ago, and came to Canada in 1898 staying in Eastern Canada till he and his brother Geoffrey came to Alberta and took up their homesteads where they have farmed ever since. The deceased was one of the first councillors for the Municipality of Battle River in which he always took a keen interest having been elected several times to the same position. He was highly respected and made a host of friends between Irma and Wainwright, who were shocked to hear of his death.

He leaves to mourn his loss, his parents, two brothers and one sister in England, two brothers in Canada, Geoffrey and family, with whom he made his home most of the time and Norman and family of Vancouver and another brother George in India.

The funeral was held Wednesday afternoon from St. Thomas' Anglican Church, Wainwright, with the vicar Rev. A. W. Trendell conducting the service. Practically the whole neighborhood turned out to pay their last respects to a true friend and neighbor and followed the remains to their last resting place in the Wainwright Cemetery.

LIQUID GAS TO BE USED

Standard Oil Announces New Plan

"Natural gas, taken from oil or gas wells, is ordinarily distributed by pipelines, some 57,000 miles of which are in current operation in the U. S. On the Pacific Coast recently Standard Oil Co. of California announced an addition method of natural gas distribution. By this project natural gas will be liquefied and shipped in tank cars to local plants, where it will be carburated.

Thus communities to which pipe lines do not at present extend will some day be prospective for natural gas service. The liquefying process is not aimed, however, at superseding pipe lines, but rather as an accessory form of distribution. Liquid natural gas will be distributed by Natural Gas Corporations of California, Oregon and Washington, all subsidiaries of Pacific Public Service Co. which is in turn a subsidiary of Standard of California.

The development of liquid distribution of natural gas will, of course, bring natural gas to many communities too small or too isolated for efficient pipe line service and natural gas men ultimately visualize a far reaching system of pipe trunk lines linked up with local distribution of the gas in its liquid form.

USED CAR SALES  
OVER-TOP NEW CARS

The remarkable number of used automobiles sold by dealers, in proportion to the new cars sold is revealed by figures recently compiled by the National Association of Finance Companies. Although the total number of retail sales recorded by manufacturers in 1929 was only 4,612,864, there were actually 10,214,084 cars and trucks sold during the year.

Used cars in 1929 thus amounted to approximately 120 per cent. of new car sales. The proportion of used car sales to new car sales has been climbing steadily every year. In 1919 used cars handled by dealers numbered less than 60 per cent. of new car sales. In other words in ten years the number of new cars sold has been multiplied by 2 1-2 per cent. while used cars have increased more than five-fold. While sales of new cars last year were 22 per cent. greater than the year before, sales of used cars increased 26 per cent.

RED CROSS ACTIVITIES

Celebrating the League of Nations day on April 22nd, one thinks with gratitude of the tremendous impetus given to the world's health and happiness by the Article XXV of the Treaty of Paris, (1918) in which the Red Cross Society is given its mandate to "carry on".

The three aims "The improvement of health, the mitigation of suffering, and the prevention of diseases" are fundamental to the welfare of every man, woman, and child in this country.

The people of Canada, hardy of race, rich in heritage, have a stupendous task ahead of them in interpreting the above policy.

In every province the Red Cross has its group of workers, who are constantly in touch with health problems, whether it be that of the ex-soldier, or the distant settler, or the day-old babe born in an outpost hospital, or the little crippled child.

Alberta Red Cross is still marching "breast forward", and in spite of financial difficulties which sometimes appear well nigh insurmountable, the Red Cross workers have faith that the flag of Red Cross will ever fly over the little country school-house, where Juniors are maintaining health traditions worthy of their great Society and that the underprivileged child will ever find a home of healing in the Children's Hospitals in Calgary and Edmonton.

## POWER COMPANY ASKS FRANCHISE

(From The Viking News)

W. Anderson, commercial manager of the Calgary Power Company, arrived in town on Tuesday and held a special meeting with the town council in regard to the franchise agreement to bring their power line into town.

The agreement calls for a franchise to supply the town with electrical energy for a period of ten years. The agreement was given the first reading by the council. It will have to be passed on by the Board of Public Utilities Commissioners and if found favorable, the company will proceed with the construction of the line which is estimated to cost \$150,000.

The power line will be constructed from Camrose via Dinan, Round Hill to Ryley. From Ryley the line will go west to Tofield and east as far as Viking, and eventually may be extended to connect up with the company's line at Irma.

The announcement that the power line is quite assured this summer has met with considerable satisfaction throughout the territory and towns that the line will serve.

SPRING CLEANING

It is not too early to send in household articles such as curtains, drapes, rugs, table covers, dresser scarves, bed spreads, eiderdowns, etc. for dry cleaning.

It is also well to consider the dry cleaning of articles which are to be put away until next winter.

It is a fact that moths will not readily attack articles that have been scientifically dry cleaned.

WAINWRIGHT RISES  
FROM ASHES; CITIZENS  
OPEN NEW HOTEL

Banquet Attended by Gathering of  
250 Marks Events.

Wainwright, April 24th—Gathering 250 strong citizens of this town together with a large representation of Edmonton chamber of commerce members, attended a banquet here Wednesday night in celebration of the opening of Wainwright's fine new hotel.

The hotel's large dining room was filled to capacity when the banquet arranged by the town's board of trade opened.

Many were the expressions of commendation for the courage shown by the proprietor H. C. Link in giving Wainwright what has been hailed as the finest hotel in any Alberta town of the size. The hotel, which replaces the Park and Wainwright hotels destroyed in the disastrous fire of July 21 last is of fire-resistant construction, is modern throughout and actually offers greater and better accommodation than the two structures destroyed.

CAMROSE EDITOR DIES

F. J. Slight, editor and owner of the Camrose Canadian, died at the Camrose hospital on Monday at the age of 40 years. He had been failing for some months and recently returned from the coast where he had spent several weeks in hopes of improving his health. Under Mr. Slight's management the Canadian has grown to be one of the leading weekly newspapers in the west. He leaves a wife and three young daughters to mourn his untimely death. His passing is deeply regretted in provincial newspaper circles where he was held in high esteem.

## Catering To Tourists

Approximately twenty millions of dollars will be expended by the Governments of the three Canadian prairie provinces in the construction and maintenance of good roads this year, not to mention several more millions which municipalities will devote to other roads not included in the system of through Provincial highways and main market roads. It is a lot of money. It represents the largest single item of expenditure for any one service. It means an outlay of at least ten dollars for every man, woman and child in Western Canada.

A very considerable portion of this vast sum is being expended on the assumption that, quite apart from the benefits that will directly accrue to our own people by reason of these good roads, they will be the means of attracting an ever increasing volume of tourist traffic from other Provinces and the States to the south, and that these visitors will bring much business and profit to our people through the purchases and expenditures they will make in this country. In a word, the avowed object of a goodly portion of this expenditure is to encourage visitors to tour the West.

Good roads, admittedly, are essential if we are to develop a large tourist business. But, in themselves, they are not enough. These prospective tourists can find good roads, possibly better ones than we can offer, much nearer home, if a fine highway over which they can speed in comfort and safety is all they are looking for. They will come to Western Canada to enjoy a new, a virgin land. They come expecting something different. What is Western Canada going to provide?

Are we going to allow our highways to be disfigured—as they have been south of the international boundary line,—by unsightly billboards and advertising devices of various kinds, defacing the landscape, obscuring the scenic beauties our country has to offer, oftentimes confused by drivers with the legitimate road directions, signs, and an eyesore to all? Governments and municipalities can, to a large extent, control the placing of such signs on the highway right-of-way, but individual property owners must co-operate by refusing permission for the erection of billboards and the plastering of signs on private property and buildings.

Our cities, towns and villages should seek to make their respective communities attractive to the visitor, and special attention should be devoted to the approaches to the main roads leading into and out of each settlement. The smaller the place, the more important it is that the surroundings be right, because they are noted to a greater extent by visitors than is the case in larger centres.

Community spirit and enterprise should find expression in having all places in which visitors are interested, and must visit, as, for example, hotels, cafes, garages, post offices, as clean, neat and efficient as possible. Gasoline and oil companies are setting a good example in making filling stations attractive in appearance, especially in larger centres, with rest rooms, wash rooms, comfort stations, etc. They are out to give service. Other businesses may well emulate them. Even the smallest place on a through highway can support such services.

The main highways through towns and villages should be clearly marked, and the location of such utilities as the post office, the telephone exchange, telegraph office, auto camp, prominently indicated.

Above all, courtesy should be the watchword of every citizen. It should be remembered that they are strangers who are entertaining in your midst. What to you is commonplace, is to them strange and new. They desire information; then go out of your way to supply it. Make them realize how welcome they are so that, when they depart, if they carry away no other impression, they will at least, remember your town as one where the people were cordial, kind and helpful.

The millions of dollars that are being expended on highways is your money. Its expenditure is designed to benefit you and your community directly and indirectly. Make the most of it. This you can only do by individual and community co-operation.

### A Modern Fog Alarm

#### Partridge Island Signal Derives Power From Diesel Engines

The Partridge Island light and fog signal station at the entrance to St. John, N.E. harbor, said to be the first steam-operated fog alarm in the world, will in the near future derive its power from modern semi-diesel engines. In adopting this modern power the station may again lay claim to priority, for it will be the first of the kind in Canada. Other stations depending on oil engines have only internal combustion motors utilizing gasoline as a starting mixture and operating on kerosene as a regular fuel. The light on Partridge Island was established in 1791, and the fog signal in 1859.

#### Shipments From Peace River

During the calendar year 1929, the Peace River territory shipped, to Edmonton 5,350 cattle, 25,100 hogs, 1,445 sheep and 730 horses, besides sundry other products, including sacked seed. Nearly 11,000 head of cattle and over 100,000 acres were broken during 1929.

She: "Did you and your boss come to an agreement on salary?"  
He: "Oh, yes; we decided to leave it as it is."

### Changing Seasons

Brings colds and other sickness. Keep Minard's in the medicine chest. It's a great preventative.

W. N. U. 1834

### Skill Of Mail Pilots

#### No Wonder They Are Considered Aristocrats Of Air

The skill and hardihood of the pilots who fly the air mail are almost beyond belief, sometimes. Not long ago Pilot Robert P. Hopkins, flying a National Air transport plane from Chicago to Cleveland with a heavy cargo, met a heavy fog bank when he arrived over Cleveland. The fog was so dense that he could not find the airport, and he circled helplessly for an hour and a half.

At last he made out a bit of the lake front. Circling low, he spied a city park with a little open space in the center. Down he came to make a safe landing on a patch of lawn so small that in the morning it was necessary to take the wings of the plane off to get it out through the trees.

Skill like that hardly needs any comment. No wonder the air mail pilots are considered the aristocrats of the air!

The indications of worms are restlessness, grinding of the teeth, picking of the nose, extreme peevishness, often convulsions. Under these conditions one of the best remedies that can be got is Miller's Worm Powders. They will attack the worms as soon as administered and they pass away in the evacuations. The little sufferer will be immediately eased and a return of the attack will not be likely.

#### A Remarkable Record

To cross the Atlantic twice every year on the White Star liner "Baltic," ever since the steamer began service more than 25 years ago, is the record of Mrs. M. C. Wilcox, 88-year-old resident of Larchmont, N.Y., who has arrived at Halifax on her 50th crossing. Her first ocean trip was made on the maiden eastbound voyage of the "Baltic."

The name Agri is derived from a Latin word meaning "to open."

### Strikes In Canada Decrease

With One Exception Last Year Most Peaceful Since 1902

With one exception, 1929 was the "most peaceful year in Canadian labor since 1902, the number of workers affected by strikes and lockouts falling to 12,924, and the days lost to 153,586. Steady progress toward happier relations between employer and employee has been registered ever since 1922, the number of workers affected being as follows: 1922, 41,050; 1923, 32,888; 1924, 32,494; 1925, 25,796; 1926, 24,142; 1927, 22,683; 1928, 18,238; 1929, 12,924.

The figure for last year was only nine per cent. of the 1919 total, the year of the Winnipeg strike. Toronto figured in three of the minor strikes of the year. The painters' strike involved 600 workers, and lasted 35 days, the time loss being 7,800 working days. The plumbers' strike involved 400 workers, lasted 19 days, the time loss being 7,500 days. The plasterers' strike involved 500 workers for 12 days, causing 6,000 days' time loss.

### ST. VITUS DANCE

#### SUFFERER MADE WELL

Nerves Strengthened Through the Use Of Dr. Williams' Pink Pills

Time after time cases are brought to the notice of the public where sufferers from nervous troubles have been relieved by Dr. Williams' Pink Pills—where victims of St. Vitus Dance have been made well through the use of these pills after other medicines have failed to be of benefit. The reason for this is that Dr. Williams' Pink Pills act directly upon the blood—they make new, rich red blood and in thus banishing all impurities from the blood strengthen the nerves and make St. Vitus Dance impossible.

Mrs. P. Donnelly, Montreal, Que., is one more grateful mother who wishes to add her testimony to those already published. She says:—"My little girl, aged eleven, was a great sufferer from St. Vitus Dance. Several doctors prescribed for her with no benefit. She was in the hospital for two weeks—still no benefit. I then saw an advertisement recommending Dr. Williams' Pink Pills. I bought a box and gave her a couple of boxes when I noticed some improvement so I continued with the treatment till now she is completely free from the trouble and can enjoy herself as other children do. I can highly recommend Dr. Williams' Pink Pills to anyone suffering with St. Vitus Dance, or with any form of nervous trouble, for what these Pills have done for my daughter I am sure they will do for others."

Dr. Williams' Pink Pills are sold by all dealers in medicine or by mail at 50c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### Needs Assistance Of Engineers

To Secure The Best Social and Economical Development In Canada

"We went westward and now we are going northward," said Brigadier-General Charles Hamilton Mitchell, describing the development of Canada to the American Society of Mechanical Engineers, at Washington. General Mitchell made plain the results of improvement in transportation, in development of hydro-electric energy, among the people of the Dominion.

The general informed the assembled international engineers of the importance to Canada of the development of transportation by land, water and air, of the tremendous result of the mechanization of the agricultural industry, of the "miracle of paper," and the extraordinary mining development.

"Looking to the future," he concluded, "a young country such as Canada with its huge natural resources, will still more demand the fullest assistance and contribution from its engineers to secure the best economical and social development. When that best is obtained then the best political and cultural results will be assured."

He had spoken to her on the pier and she was very annoyed. "I don't know you from Adam!" she exclaimed, indignantly. "You ought to," he retorted. "I'm dressed differently."

In spite of all jokes, figures prove that Englishmen are more saving than Scots.

The early bird gets the worm, but, unhappily, the too early bird gets the frost.

### Dry, Burning Throat Made Life Miserable

Have You These Symptoms?

"For three years I was seriously bothered by a bronchial cough. At night I would awaken with a dry, irritating feeling in my throat. I couldn't get up without coughing, but very soon my throat got into quite an inflamed condition. Once I got CATARRHOZONE INHALER I was all right. I took it to bed, and if an attack awakened me the inhaler gave me relief. Catarrhozone has restored me and I strongly urge every one with a weak throat to use it regularly."—(Signed) J. B. Beamer, Reading.

Catarrhozone will not disappoint you. Get the complete \$1.00 outfit; it's guaranteed. Small size, 50c. At dealers everywhere.

### Catarrhozone A Ten-Minute Relief!

#### Loss Is Unnecessary

All Baby Chicks Can Be Raised If

"There is no need in the idea so many people have, that you have to figure on losing a big percentage of your baby chicks," says P. F. Clardy, former president of the American Baby Chick Producers' Association, and for thirty-five years a practical poultry raiser. "Start with good vigorous chicks from healthy stock, properly hatched in modern incubators. Give them the right kind of care and feed, protect them from chilly winds and rains and from vermin and rodents, and there is no reason why you should not raise practically every baby chick."

"In all my years of experience, I have found that, aside from the very important factor of starting with a quality of chick in the first place, the most important thing in poultry raising is to give the birds the care they are entitled to. A baby chick is a tiny bit of life, but how it will grow when it gets a good start!"

"I have found that strict attention to keeping the living quarters of poultry absolutely clean is a great help. Filth spreads disease! Cleanliness opposes it. Of course undue exposure must be guarded against also. As long as the Chinese doctors have kept their patients well, the story says, he gets his pay regularly. Whenever they become ill, his pay stops until he makes them well again. Consider yourself your own poultry doctor. So long as your birds are well and thrifty they will pay you, consequently it is up to you in having to gasp for breath. A friend told me to try

### Smothering Spells Couldn't Walk Far Gasped For Breath

Mrs. T. W. Roth, Kelowna, B.C., writes:—"For over a year I was troubled with smothering spells, and it was impossible for me to walk even a short distance on account of having to gasp for breath. A friend told me to try

which I did, and in a short time I felt much better. "I can now recommend them to everyone." Price, 50c. a box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

**Synthetic Bee Stings**  
Perfection of synthetic bee stings has been announced by the medical laboratories of Vienna, Austria. Professors of the Polytechnic hospital made chemical analysis of bee venom and claim to have succeeded in duplicating and improving it. The stinging chemical is said to cure rheumatism.

**Persian Balm** is a true elixir of youth. Refreshes and rejuvenates. Adds a youthful charm to the complexion. Softens and beautifies the skin. Makes hands flawlessly white. Indispensable to the woman who appreciates subtle distinction. Delightful to use. Delicately fragrant. Soothes dry and irritated skin. Corrects and preserves. A flawless toilet requisite for every discerning woman. A true aid to beauty.

**A Model Community**  
In the town of New Lanark, Scotland, established as a model community by Robert Owen, there were no lawyers or magistrates and not a legal punishment during a period of nearly 30 years.

Minard's Has Wonderful Antiseptic Power.

### Not Properly Qualified.

Toronto Professor Says Universities Not Equipped To Study International Relations

Canadian universities are not sufficiently qualified for an adequate study of international law and international relations, Prof. Norman MacKenzie, of the University of Toronto, told the House of Commons committee on industrial and international relations. He knew of no university in Canada, he said, which had a library equipped for the intensive pursuit of these studies.

The committee was considering a resolution sponsored by Miss Agnes MacPhail (Prog. South-east Grey), calling for the establishment of chairs and scholarships of international relations in Canadian universities. There was a field in Canada for improvement in this respect.

Prof. MacKenzie thought parliament might well consider aiding either by grants or other means. If the universities were available Professor MacKenzie thought, the studies would be developed by the universities and the students themselves. Another suggestion he advanced was that competent professors and students in Canadian universities be given greater opportunities to observe the operations of international business.

Many mothers can testify to the virtue of Mother Graves' Worm Exterminator, because they know from experience how useful it is.

### Preserving Historic Building

Alberta May Restore Old Fur House Built In 1793

Old Fort Edmonton, built 135 years ago inside an 18-foot stockade, may see partial restoration, according to the statement of Premier Brownlee in the Alberta legislature. The last building to be pulled down was the old fur-house, which until 1915, stood on the ground below the legislature. The proposal seems at present concerned only with setting up a log structure two storeys high, with the fur-house which goes back to the time when John Rowland was chief factor, between 1825 and 1851. Interest is being shown in the possible erection of a miniature of the whole layout of the early fort.

### Minard's For Falling Hair

**Thermometers Tested Yearly**  
Every year, the Physical Testing Laboratory of the Topographical Survey, Department of the Interior, tests several thousand clinical thermometers for Government departments or for the general public. A certificate is given with each thermometer, which successfully passes the required tests.

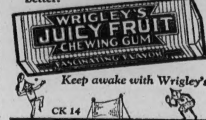

#### Dogs Have Rights

Because he drove his car over a Boston building, Robert Miller, of Hamilton, Ont., was found guilty of cruelty to animals. He was allowed out on suspended sentence, but must make good the value of the deceased animal, which was \$60. Magistrate Burbridge ruled that dogs are entitled to the same consideration on the street as pedestrians.

**WRIGLEY'S**  
When you need new energy, when you are hot and mouth is dry—pep up with Wrigley's—it moistens mouth and throat.

The increased flow of saliva feeds new strength to the blood, you can do more—you feel better.

Keep awake with Wrigley's

### New Industry For Canada

Eighteen Varieties Of Soybean Can Be Cultivated In Dominion

Canadian farmers are finding a new opportunity in the cultivation of the soybean. During 1929 soybean oil and other products to a value of nearly \$2,000,000 were imported by Canadian industries. Experimental work conducted by the Dominion Department of Agriculture shows that eighteen varieties can be successfully cultivated in Canada. It grows under essentially the same conditions as corn, and generally speaking, can be grown anywhere corn grows, and with about the same results.

**Fresh Supplies In Demand.**—Wherever Dr. Thomas' Electric Oil has been introduced, increased supplies have been ordered, showing that wherever it goes this excellent Oil impresses its power on the people. No matter in what latitude it may be found its potency is never impaired. It is put in most portable shape in bottles and can be carried without fear of breakage.

### The Modern Wolf

The wolf that used to sniff around the door now occupies an easy chair in the parlor, right next to the radio, and within easy reaching distance of the iceless refrigerator, the vacuum cleaner, and other necessities of life.

### Perfect dyeing so easily done!

**DIAMOND DYES** contain the highest quality anilines money can buy! That's why they give such true, bright, new colors to dresses, drapes, lingerie. The anilines in Diamond Dyes make them so easy to use. No spotting or streaking. Just clear, even colors, that hold over wear and washing. Diamond Dyes never give things that re-dyed look. They are just 1c at all drug stores. When perfect dyeing costs no more—is so easy—why experiment with makeshifts?

### Diamond Dyes Highest Quality for 50 Years

**Keep Foods Deliciously Fresh**

Keep your foods—cakes, bread, pies, cut meats, etc.—under a covering of Para-Sani Heavy Waxed Paper. You'll be amazed at the length of time they'll stay fresh...delicious! Para-Sani keeps them from staling. Get Para-Sani in the handy, sanitary knife-edged carton. For exacting uses ask for Appleford's "Centre Pull". Packs in sheet form.

## Recreational Resources of Canada Compose a Loadstone Which Draws Millions Of Visitors

Canada's recreational resources are a national asset of the first order. They compose the loadstone which each year draws millions of visitors to the Dominion and they form a source of wealth which annually adds a large and rapidly growing item to the national income. There are, in fact, few records in the annals of Canadian development more interesting or more remarkable than that of the rise to importance of the Dominion's recreational features. Today the returns from these assets keep pace with those from such major factors as mines and forests.

Some idea of the extraordinary growth of holiday traffic may be gained from the records of touring automobiles entering Canada in recent years. In 1919 the number of cars entering Canada for touring purposes was 238,000 and during the ten years up to 1929 this figure had increased to 4,509,000. Aside from the phenomenal increase of motor tourists, railway and steamship lines each year add large numbers to the thousands who holiday in Canada. Tapping an even wider field than the automobile, these organizations have spread the Dominion's fame from holiday land literally throughout the world.

The most casual traveller crossing the Dominion from east to west cannot but be struck by the sheer diversity of Canada's natural features. First there is the rugged Atlantic shore; then the great system of inland lakes, seas in depth and stretch a thousand miles of rolling prairie; followed by the great barrier of the Rockies, rivaling the Alps in grandeur; and finally the sea, bathing with its warm waters the far-flung Pacific coast. All these contribute to the glorious panorama of a transcontinental trip across Canadian territory.

The charm of the Maritime Provinces is not easily depleted. These provinces—Nova Scotia, Prince Edward Island, and New Brunswick—are famed for the mellowness of age that captivates the visitor from newer regions. The snow-white lighthouses crowning the cliffs that overlook the sea, the white sails of the fishing smack seeking its sheltering cove, the quaint fishermen's cottages that straggle up the hillside, the shaded inland roads and winding forest streams, the springtime mantle of blossom that clothes mile upon mile of orchard valleys—all these suggest the elements that blend to give the Maritimes a picturesqueness peculiarly their own. In this setting is found all that goes to complete the happiness of the holiday visitor—excellent facilities for motoring, boating, fishing, hunting in season, and all outdoor recreation.

Reaching from the Gulf of St. Lawrence to the head of Lake Superior, a voyage of 2,600 miles, one of the world's great systems of interior waterways traverses Eastern Canada. Nowhere exists an interior water route more varied than that traversed in a trip up the storied St. Lawrence, touching at historic Quebec and busy Montreal. Leading on through the Thousand Islands and the Great Lakes, past Toronto, Niagara Falls and a dozen other centres of commercial or scenic interest, such a voyage reveals the heart of Eastern Canada and leaves a vivid impression not only of the natural beauty but of the business life of this part of the Dominion.

The Laurentian region—the huge horseshoe skirting Hudson Bay to the east, south, and west—is pre-eminently the country of forest and stream, of hunting, fishing, and canoeing, of great unexplored areas. Countless lakes and rivers form a network of dustless highways routing the canoeist through a hinterland where trout, bass and muskellunge, moose, deer and bear, stock a superb field for the sportsman.

The prairies are less familiar as a holiday region. Yet, for thousands of

visitors, the fertile western plains with their endless miles of rippling grain present a scene of beauty and satisfaction to countless visitors. Beautiful summer resorts nestle on the shores of prairie lakes, and for the enjoyment of the sportsman few fields offer finer attraction than the hunting, in season, of prairie game birds.

For scenic splendour the Rocky Mountains have been declared by many experienced Alpine climbers to be unsurpassed. Majestic ranges, scarred by age and weather, rear their summits against sky of purest blue or bury their snow-capped peaks in fleecy clouds. Glaciers and waterfalls, emerald tinted lakes and wooded valleys combine to entrance the eye and the enchantment is increased by the alpine air fragrant with the scent of pine and fir. The mountains are noted for their big game—bighorn sheep, grizzly bear, Rocky Mountain goat, elk, deer, moose, caribou, black and brown bear, and mountain lion.

Canada's Pacific coast, with its fjords and inlets, is a revelation to the tourist. Its moderate climate makes it an all-the-year-round playground for thousands, while its hunting, fishing, and other sporting attractions are unexcelled on this continent.

Taking into account the scope, the variety and the steadily widening renown of the Dominion's recreational attractions, there is ample ground for the view that these natural assets will, through their direct and indirect commercial effects, prove to be one of the major forces of Canadian development in the next generation.

### Winnipeg Newspaper Union

(By Anabelle Worthington)

2846

Smart young things are including many silk crepe frocks in their Spring wardrobe to be worn with separate coat to carry out ensemble theme.

The youthful animation of hem, makes this model especially attractive, for it is equally smart worn without a coat.

The cap sleeves of the yoked bodice are outstandingly chic in pointed treatment. It is slipped in at normal waistline by narrow belt.

Style No. 2846 comes in sizes 14, 16, 18 and 20 years. In the 16-year size, 2½ yards of 39-inch material with ½ yard of 39-inch contrasting is sufficient.

Pattern price 25 cents. Be sure to fill in size of pattern. Address Pattern Department.

### Grain Elevator For Churchill

2,500,000 Bushel Grain Elevator To Be Completed By September 1931

Tenders for a 2,500,000 bushel grain elevator at Port Churchill, the terminus of the Hudson Bay Railway, have been asked by the Department of Railways and Canals.

It is planned by the department to have this elevator completed by September 15, 1931, in time for the handling of next year's crop. As from 600 to 800 feet of deep water dock will have been constructed by that time, it will be possible to load ocean ships at the elevator.

It is planned to resume the regular weekly, if not twice-weekly train service between The Pas and Churchill, for the use of Canadian National Railway officials and those at work at the Bay terminus. As there is yet no provision for people other than those actually employed at Churchill, outsiders will at least be discouraged from going there.

### Deadly Carbon Monoxide

Risky To Run Car In Garage Even With Doors Open

In view of the deaths which are being so constantly reported through the deadly carbon monoxide gas, it is worth while to draw attention to the warning just given by Professor Norman Hall, of Manitoba University. The figures he gives as to the danger of this gas are startling, as he finds that a mixture of five parts of it to 10,000 of air is very dangerous, but that one of 15 to 20 is absolutely deadly. The percentage which will be formed in a small garage in a few minutes is greater than this. One particular point is urged by the professor, that it is not safe to run the engine in a garage for any length of time with the doors open, for if the wind should happen to be blowing into it this would be tantamount to closing the doors.

### Merchant Has No Comeback

Partridge Breaks Plate Glass Panes In Store Window

When storekeepers have plate glass windows broken they usually look for the price of a new one, and quite frequently get it. But in the case of A. Livingston, Dubuc, Saak, merchant, who had a large plate glass window broken the culprit gave his life for his rash act. Possibly the merchant was not even then satisfied. The culprit was a partridge which smashed the glass all to pieces when it flew against the window. Its neck was broken by the impact.

### For Improved Livestock

The first "Improved Sire Area" in Manitoba has been established in the municipality of Roland, according to an announcement made by Albert Prefontaine, Minister of Agriculture. Under the Improved Sire Area Act, all bulls, boars and rams must be inspected and approved before the owners of same are permitted to retain them for service in the area.

Monkeys trained to operate them are used to try out new types of parachutes in Japan.

### Strange Blue Grass

Thrives in Winter

Will Grow Under Adverse Conditions Without Cultivation

Experts from the United States Department of Agriculture predict that the strange winter blue grass discovered on an Oregon farm and believed by them to be the "lost grass" of Europe, may revolutionize farming and dairying industries.

The story of the grass is a farm romance. Similar to grass which disappeared in Europe a century or more ago, it dies down in summer, but other grass is green, but thrives in winter, when food for livestock is low. It forms a perfect turf, even under the snow.

Because the experts found it will grow under adverse conditions, without cultivation, and will thrive in rainy regions, they view it as a solution of the problem of utilizing logged-off lands of the Pacific northwest.

Seeds for use in the Pacific northwest will be sold exclusively in Seattle by the Children's Orthopedic hospital. The agency was a gift of Mrs. E. B. Hanley, on whose farm the seed was found, and will be a source of permanent income for the hospital.

### Yellow Journals in Shanghai

People Have To Be Circumspect To Avoid Publicity

The Chinese business or professional man who strays from the straight and narrow path usually reads all about his sins in the papers.

A survey made recently by military authorities indicates that there are more scandal sheets in Shanghai than any other city in the eastern hemisphere and probably in the world. One hundred and ten yellow tri-weekly newspapers are published in the Asiatic metropolis and are all devoted to printing news not fit to print.

To keep these pages supplied with information concerning the doings of Chinese who are in the spotlight, a large army of Chinese scandal mongers is constantly kept on the job. They appear at the most amazing times and at the most inconvenient places.

### Special Type Of Piano

German Manufacturer Solves Problem Of Difficult Traverses

In order to transport pianos over mountain trails or difficult roads, an enterprising German manufacturer has constructed a special type of the instrument, which permits it to be carried on horseback. The piano has a U-shaped lower section which fits the animal. Other parts are made dismountable so that they can be transported in several packing cases on the backs of mules, and assembled on delivery, because the instrument would be ruined were it to be hauled over many of the trails for hours, and often days, in a cart drawn by oxen.

An average of 3,000,000 persons are ill in the United States every day.

### SUGARING TIME

You can't fool these two youngsters about this spring business. When there is a sound of preparations in the maple bush, the fragrant scent of burning hard wood and glint of sap pails, it's a sure sign that spring is here. Here we see "Jack" and "Jill" who didn't need to go up the hill, and furthermore, it isn't winter.

## The Present Market Condition Clearly Reflects Success Of Pool Says Professor Fay, of Toronto

### Control Wolf Menace

Bounty Offered For Destruction Of Wolves in the North West Territories

The Department of the Interior, through its North West Territories and Yukon Branch, wages a continuous fight to control the ravages of wolves among the wild life of Northern Canada. Realizing the tremendous toll taken annually by wolves, principally among the caribou, and the serious destruction caused along trap lines by the mutilation of the pelts of fur bearers caught in traps, the Department has for a number of years been experimenting with various methods of control. The most effective scheme to date has been the increased bounty of \$30 per wolf pelt put into effect in 1924.

Under the regulations the hunter or trapper turns in the wolf pelt and receives the bounty, the pelt becoming the property of the Department. In this the wolf is being made to pay for his own destruction as the money realized from the sale of the pelts at the fur auctions has greatly reduced the cost of the increased bounty system. Owing to the high prices which prevail in the fur trade for choice wolf pelts, not all of the pelts are turned in for the bounty, but the record of those on which bounty has been paid and which have been forwarded to Ottawa during the fiscal year ended April 1, 1930, shows that 938 wolves were killed in the last twelve months as compared with 1,040 in the same period last year.

### Japan Takes More Wheat

Half Of 1929 Import Was Purchased From Canada

Not only did Canadian-Japanese trade reach a new record in 1929, but Canada supplied Japan with one-half the wheat imported by that country.

This is shown in statistics prepared by the Department of Finance, Tokyo, and announced in a statement from the Japanese consul at Vancouver. The statement further remarks: "While the import of wheat from Canada is increasing year after year, import of wheat from the United States is decreasing in proportion. In 1927 Canada's share was one-third of the total imported into Japan, while in 1929 it increased to one-half of the total, followed by Australia and the United States."

The value of Canada's wheat export to Japan was more than \$17,500,000, an increase of more than \$1,750,000.

Canada's total exports to Japan amounted to nearly \$34,500,000, an increase of about \$1,125,000 over the preceding year. Japan's exports to Canada remained stationary at \$13,500,000.

In 1929 Japan's import of pulp showed a decrease, but Canada continued to lead in that market with \$2,225,999 worth, followed by Norway and the United States.

### The Time To Advertise

Greatest Need Is When Things Are Looking Bad

There is a curious idea which dominates the minds of some people that the time for advertising a particular product is when the market price is good as the result of a strong demand, and that it is futile to advertise when prices are low. The fact is that there is no particular season for advertising, and for the best results the product in question must be kept before the public eye at all times and all seasons. When the market is good, advertising can help to keep up the demand; when it is bad it can assist in creating a better demand. Indeed, it is when things are looking bad that there is the greatest need for advertising.

### Has Sunless Winter

Like Hammerfest in Norway, Prussia has a village upon which the sun never shines during the winter. The name of the community is Forstlangsvasser, and it is located in the Giant Mountains. Two mountains shelter the village from the winter sun the whole day long, so that the village has nothing but twilight in which to do its work from sunup to sunset.

Heart disease, cancer and accidents claimed more victims in 1929 than in former years.

A pineapple taken to London ahead of season by a sailor was sold for \$25.

The easier a girl is to look upon the harder a man will look.

The Canadian people have confidence in the Wheat Pool and the present condition of the market clearly reflects the success of the Pool, says Professor C. R. Fay, of the economics department of Toronto University. Professor Fay has just completed a survey of the western grain situation and will shortly proceed to England to examine the status of the Canadian Wheat Pool there.

"After my investigation I am a strong supporter of the Pool as it has functioned hitherto as a voluntary organization," he said. "There has been an attempt made in Saskatchewan to make it compulsory for farmers to sell their wheat through the Pool. I am strenuously opposed to that."

The fact that export trade was improving was another indication of improvement in the wheat situation, said Prof. Fay. Considerable attention was fixed on the American winter wheat crop. However, absence of rain there and only moderate improvements of exports have caused farmers to cease to worry on that score.

Talking over the general situation last year with both representatives of the wheat "trade" and the Pool, Professor Fay was convinced that North America had been most "bullish" in its wheat trading.

"Most emphatically the Pool was not holding out when the trade was selling," he said. "The Pool was offering wheat continuously all summer and fall at below Winnipeg prices in an effort to dispose of the wheat crop."

"But in order to compete with the unusual Argentine crop, it would have been necessary to sacrifice grain as low as 20 cents below the Winnipeg prices, which was unreasonable," he continued.

"The difficulty in 1929 was to move the limited quantity of high quality Canadian wheat to Europe, which was determined to depend on its own wheat crop. There is no question of a boycott of Canadian wheat," said Professor Fay. "The tariff wall in England and Europe is just a case of need of tariff protection for local growers against the cheaper Argentine wheat. The ban was directed at Canadian wheat, but the higher grade grain has suffered, with the lower grade Argentine product."

"I wish to defend the Pool as a strong, stable organization, whose members are standing fully behind it. Even though many of the western farmers are so short of money that they have had to sell their seed grain in order to live, they are supporting their Pool," he said. "The division in Saskatchewan has died down and it is now less acute than in the period of low prices."

### Queer Sight In Cuba

Trees Grow In Limestone Areas With Little Care

Huge trees growing without any visible means of support are one of the queer sights of the Zapata swamp of Southern Cuba, which is nearly 1,800 square miles in extent. Many varieties of trees, some 4 feet in diameter, are found growing in limestone areas where not so much as a single spoonful of soil can be gathered from an acre. The trees make a start in small pockets and holes in the limestone, where collections of leaves and disintegrated rock furnish them with cover for growth. In their search for food the roots stray about over the surface of the rock, finally plunging through holes to find sustenance in soil hidden deeply in the cavernous recesses of the coral stone.

Nearly 5,000,000 persons with incomes of more than \$675 a year were assessed for income tax in England in the last fiscal year.

"Do you worry about your old debts?"  
"No, I forget old debts."  
"What about new ones?"  
"I let them get old."—Hummel, Hamburg.

"Why do you insist on a post-mortem examination after you are dead?"

"I want to know what I die of."—Muskele, Vienna.

### THE HOME ON THE LAND

This editorial is being written on the farm, twenty-five miles from the arc lights and the hot water tap. It is being written for the eyes of dirt farmers, their wives and families. It is being written in a sincere and deep love of a home on the land.

Many city dwellers imagine that a home on the land is a drab and dull place in which to spend a lifetime. Nobody ever made a more foolish mistake in their calculations.

A home on a farm is a complete enterprise within itself. If properly managed it is the most independent and self-supporting enterprise on the earth. It pays its own way from the shoe strings of the kiddies to the extravagant cigars of the boss himself. It comprises a wider knowledge of business and science than is required by the owner of a magnificent department store.

Breeding, rearing, feeding, developing, marketing livestock is one of the world's greatest industries. And yet its rudiments and its polished perfection are the daily, hourly routine of the practical farmer.

Preparing the land for crops, the selection of seeds, the timely, intelligent performance of the various operations in planting, rearing and harvesting a crop, is one of the most complicated, uplifting and satisfying occupations in which mankind can be engaged. All this is the work of an expert, a scientist, an artist. It calls forth the very best elements of mental and physical stamina and ability.

And with the modern improvements which the miscellaneous radio and its kindred wonders have brought to the farm home, the home on the land is, or can be, as bright, inspiring and edifying as any other home.

Printing has let a radiant light into the darkest and most remote corners of the farthest homesteading districts. So nobody on the farm need be lonely. Books and radio and good roads have banished loneliness and long distances. We are in immediate touch with the world.

The cheapest crystal radio set in Alberta brought in the voice of the king as he spoke at the naval meeting in London, six thousand miles away. We are in the very heart of the universe, in the modern home on the land. So let us love it and cherish it and teach our children to stick to it. — Bert Huffman in "Mark Examiner."

### WHAT A RECORD!

(Orangeville Sun)  
There are 200 applications from Ontario for divorce. Of this number 128 come from Toronto. In 125 applications the initiative has been taken by the wife.

There is not a single application for divorce from Perth, Huron or Bruce counties. Included in the list are mechanics, merchants, salesmen, barristers, clerks and so on.

But there's not a single, solitary editor, reporter or newspaperman of any size, shape, color or description being sued for divorce.

What a showing! What a record! What a tribute to the pure, sweet lives of the seemingly tough old birds that inhabit newspaper offices! Ladies! If you have many suitors, and if, among the number is the humblest scribe on the roster of the newspaper office, look well and kindly upon this jay.

He is apt to be a diamond in the rough. Chances are he may take you to the movies or the circus only when it's his turn to use the office pass, but mind not that. Gaze fixedly upon those hard, cold figures from Ottawa that tell of broken hearts and busted homes, and remember there's not a newspaper guy in the whole list.

Don't forget that. He makes the ideal husband, hard work, long hours and only fair monetary reward all tend to keep him humble and in his proper place.

### RE-VAMPS PAPER

The Dayland Press, Kilam News and Sedgewick Sentinel have been combined into one paper, which is called The Community Press, by A. L. Eastly, publisher of these papers for several years. The object of the paper is to present the activities of these communities each week. It starts out as a newsy well printed paper, and it is fairly well supported by the business men of the towns it serves.

If you have something valuable that you don't want and somebody else can use it, an ad. in this paper will sell it for you. Try it.

## VIKING

Mrs. W. L. Campbell, of Edmonton, was a guest at the home of Mr. and Mrs. J. L. Dodds last week. While here several afternoon teas were held in her honor.

Mr. and Mrs. W. J. Dillane returned last week from California where they had spent the winter months at the home of their son, Perry Dillane who resides at San Diego.

Mr. C. G. Purvis received the sad news last Thursday of the death of his mother, Mrs. A. C. Purvis, of New Westminster, B. C. Mr. Purvis left that night for New Westminster. Obituary will appear in next week's paper.

Evidence that the citizens used the holidays to good advantage by cleaning up their yards is seen in all parts of the town. On Main street we note the improvement to the vacant lot between the L. H. C. implement shed and Clinton's store, and the filling up and levelling of the lot south of the McAthey & Jones garage.

Among those from here who saw the Edmonton Grads girls basketball team defeat the Toronto Lakesides in the first game of the dominion finals at the Edmonton arena on Saturday evening were Mrs. and Mrs. Angus Ross and daughter Mrs. Bessie, Mr. and Mrs. Harry Cartwright, Archie Cartwright, Mr. and Mrs. Percy Main, Mrs. Dooley, Miss M. Barker, Miss Sherman, and Mr. and Mrs. Thunell. The game was easily won by the Grads by the score of 47 to 17. Percy Williams, Olympic sprint champion, was seen in action against Harold Wright of the University of Alberta. Both showed good form, but Percy won handsily.

W. H. Wallace has added a valuable animal to his herd by purchasing the grand champion Shorthorn bull exhibited at the recent Edmonton stock show by the university of Alberta. "Consul Chief" is a full brother to the grand champion at the Toronto stock show held last year. It is a good sign to see such good pure bred stock being brought into the district.

This week being observed as "National Be Kind to Animals Week" throughout Canada, let us resolve that our faithful work horses will receive proper treatment during this busy season near at hand. — Viking Humane Society.

On Good Friday service of meditation was well attended by the congregation when Ivor Francis gave the addresses on the seven last words of Jesus from the cross. The service was from 12 to 3, suitable hymns were sung and prayers taken by the Rector between the addresses.

Easter Day the Church was most beautifully decorated with cut flowers and pot plants. The Altar with its new set of pale silk hangings and beautiful white silk frontal, beautifully embroidered with Easter lilies, had a most Festal appearance. Holy Communion was celebrated by the Rector at 8 and 9 a.m., with a sung Eucharist at 11 a.m. The number of communicants during the day was larger than ever before.

Sung evensong at 7.30. Mr. Harper sang a beautiful solo and Mr. Chan Collins gave a solo on the violin. The Rector preached from the text "I am He that liveth and was dead; and behold I am alive for evermore." Revelation 1:18. The Church was filled with worshippers.

"Are you a Mason?" The Rector advises all who have not seen their play to be sure and see it at The Elks Hall on Wednesday night, April 30th. When first produced in London, England, it had a most wonderful run continuously for nearly two years playing every night as well as at matinees. It is bristling with fun and laughter. The Holden players are all well known to Viking audiences.

Miss V. Gimby, of Edmonton, was a visitor at the home of her sister, Mrs. Harry Lawes, over the holidays.

A. T. Richardson, manager of the local branch of the Bank of Montreal, enjoyed a visit to Forestburg and other points over the holidays.

Miss Florence Gillespie who is a student at the L'Arthney Girls College at Edmonton spent the Easter holidays at the home of her mother Mrs. L. Gillespie.

Mr. and Mrs. Steve Swift took their thirteen year old daughter to Edmonton on Sunday for medical treatment. She is reported to be very low.

Wainwright was represented at the dance here Monday evening by Misses Stella Leroux and Dot Evans and Messrs. Guy Pigeon and Alvin Horne.

"Buzz" Jones is home from Calgary this week and will return shortly to resume his studies at the Calgary Technical Institute.

Mr. and Mrs. Hugh Little, who have been visiting relatives and friends at Battleford, Sask., are expected home this week.

Carl Finch, of Irma, was a visitor at the P. E. Finch home over the holidays.

## Here and There

(508)

"England is intensely interested in reciprocal trade possibilities with the British Empire. A satisfactory trade between England and Canada has been carried on in the past, an even greater interest is being shown by well-established firms in Great Britain in Empire trade," said R. H. Galbraith, British exporter, at Saint John recently on landing from S.S. Duchess of Richmond. Mr. Galbraith is touring Canada in the interests of his firm.

"There is no feeling of resentment against the Canadian Wheat Pool in Great Britain," stated Rt. Hon. Lord Eustace Percy, seventh son of the Duke of Northumberland, on landing from S.S. Duchess of Athol at Saint John recently. "The consensus of opinion in the British Isles is becoming increasingly conscious of a serious economic problem which both British and Canadian farmers are called upon to face," he added.

Covering nearly 50 miles, leading into rich agricultural territory in Saskatchewan, and Alberta, the Canadian Pacific Railway has just let contracts for grade construction of four branch lines. It is announced by J. C. Coleman, vice president in charge of western lines. These contracts cover less than half the railway's present grading programme.

Receipt of the first entry in the world's grain exhibition and conference to be held in Regina in 1932 has been credited to William Hudson of Calgary, Alberta, with an exhibit in the Reward wheat class. Mr. Hudson, who has been exhibiting successfully in provincial fairs in the past three years, came to Canada from the Old Country in 1912.

Announcement is made by the Canadian Pacific Railway Company that on and after Wednesday, April 9, they will accept shipments of freight at eastern points destined to points in the north-west, via Port McNicoll, Ontario, and their lake and rail route, subject to delay at Port McNicoll pending the first arrival of the 111th steamers in the company's lake service between Port McNicoll and the head of the Lakes during the coming season.

While the Five Power Conference is in session in London considering ways and means of promoting world peace, active preparations are under way in Canada for launching another war with relentless fury. Millions of casualties are being planned, and the war which is timed to start in May. It is the war on insect pests in the Dominion which work incalculable damage to trees, plants and crops unless checked by Government entomologists.

Homestead entries in the four western provinces during January and February of this year numbered 1378 as compared with 1416 for the corresponding period of 1929. Alberta and British Columbia showed advances while Manitoba and Saskatchewan showed recessions.

Over \$52,000,000 has been invested in manufacturing enterprises in the Province of Alberta and these concerns are paying out \$14,000,000 a year in salaries and wages to over 11,000 employees. Similar rapid development in industrialism is to be noted in the sister provinces of Manitoba and Saskatchewan.

"There is at present in Great Britain a decided awakening of interest in Canadian universities," said Dr. Cyril Norwood, headmaster of Harrow, one of the most famous of English public schools and Alma Mater of Lord Byron. Dr. Norwood is chairman of the delegation of British headmasters here on a tour of inspection of ten Canadian universities. He arrived at Saint John recently aboard S.S. Duchess of Bedford.

Canada's first ranking tennis star, Dr. Jack Wright, figures lion shooting, elephant baiting and antelope hunting just the kind of sport to keep a tennis player in trim. Arriving at Vancouver recently aboard the S.S. Empress of Canada, Dr. Wright says he feels in great shape for the forthcoming Davis Cup matches.

Retirement of C. E. McPherson, assistant passenger traffic manager Western Lines, Canadian Pacific Railway, after more than 50 years of railway service, and promotion of six other officials of the department from coast to coast of Canada, has been announced, effective May 1. Promotions are: H. W. Brodie to be overseas passenger manager; R. G. McNeill to be assistant passenger traffic manager, eastern lines, Montreal; T. R. Desbriay to be assistant passenger traffic manager, western lines, Winnipeg; E. F. L. Sturdee, general passenger agent, Vancouver; H. R. Mathewson, general passenger agent, Winnipeg; and George R. Carter, assistant general passenger agent, Montreal.

The annual production of honey in Canada is about thirty million pounds. While a great deal of honey is used in the home, the principal commercial users are confectioners, bakers and bottlers.

At the World's Poultry Congress to be held at the Crystal Palace near London in July, a feature of the Canadian exhibit will be a model of the Prince of Wales' ranch at High River, Alberta. It will occupy 160 square feet of space and will be fitted with electric appliances and lights that will show the ranch in a novel and attractive way.

## KINSELLA NEWS

(By J. J. Overbo)

The Kinsella Golf Club is holding a dance in the Pool Hall on Friday, April 25th. Snappy music has been arranged for and all are invited to come and have a good time.

Mr. Geo. Lee has purchased the tract of land just south of the railroad track, adjoining town, (about two hundred acres and has engaged Thom Woods to put down a well.

P. J. Wangness, who recently purchased the quarter section of land adjoining the north side of town from Geo. Lee, has commenced building operations. We understand Mr. Wangness is erecting a nine roomed house, also a fine large barn, and other buildings, which when completed will be a credit to the community.

Mike Uvillaski, who recently purchased the Blacksmith shop from V. A. Justik, has brought his family down from Round Hill and is occupying the house formerly occupied by the Hamilton family.

Considerable snow and rain has fallen throughout the district the past week and the land is in fine shape for receiving the seed. Farmers are seen everywhere busy on the land wearing an optimistic smile. The acreage will be about the same

as last year, with a tendency to seed a little more coarse grains. At present the land is soaked with moisture to a depth of about six inches, with prospects of more.

The auction sale held at E. Hardy's farm last week was fairly well attended. Prices realized were fairly good.

H. L. Cooper of Phillips, shipped a carload of hogs and cattle from Kinsella to Edmonton on Thursday.

Joe Justik, who has completed a weeks trial teaching at the Coal Springs school is returning to Camrose on April 28th to finish Normal.

The local Women's Institute held a sale of work in the basement of the United Church, on Saturday last. Many partook of the splendid lunch served during the afternoon. The sale of work was also very successful.

The last dance of the season held in the Lake Vernon school on Friday last, under the auspices of the committee in charge of social activities for this district, drew the largest attendance of any since the commencement last fall. About two hundred were present, and a splendid time seemed to be had by all. The proceeds were also the largest of any held this past winter.

## NEWS ITEMS FROM KINSELLA

Miss Edith Corbett spent the Easter holidays with her parents here.

Mr. Bishop, Mrs. Hawkesworth and Mr. Claude Bishop of Vermilion spent Easter with their daughter and sister, Mrs. John Neale.

Mr. and Mrs. W. Anderson returned from the Coast last Thursday after having spent the winter there.

Mr. Jamieson of Vancouver, B. C. spent Sunday with Mr. and Mrs. Anderson.

Mr. Gordon Groff of Manitoba is visiting his sister Mrs. Wm. Anderson.

The Ladies Aid held an Easter tea and sale of aprons in the basement of the Church on Saturday afternoon the 19th. The proceeds amounted to \$16.50.

Mr. and Mrs. J. Ansell and Mr. Third attended church at Killam Sunday afternoon.

Miss Isabel Stronach spent Easter with her parents here.

Mr. and Mrs. Duncan Plain and family of Edmonton spent the Easter holidays with Mr. and Mrs. R. Eaton.

Mr. and Mrs. Lund of Viking spent Easter with Mr. and Mrs. P. J. Wangness.

Miss Wadden is spending the Easter holidays with her parents here.

Miss Dorothy Williams spent Easter with Miss Ella Cormack.

Miss Edith Watson who is attending Camrose Normal spent Easter with her parents. Next week she will teach at Overleigh school.

Mrs. Neace is entertaining her sister from Edmonton.

The high school opened on Tuesday morning after the Easter holidays, the public school will open next Monday.

Miss Laura Mark is spending the Easter holidays at Calgary with her teacher, Miss McGrath.

## WORLD HAPPENINGS BRIEFLY TOLD

The 900th anniversary of the Speyer cathedral will be celebrated on July 12, 13 and 14 of this year.

Summer time in England went into effect at 2 a.m. April 13, and clocks were set one hour ahead.

Pilot Mermoz broke the French duration record in a seaplane, landing after thirty hours, twenty-five minutes and forty seconds in the air.

The salaries and expenses of the pensions appeal board of Canada last year were \$45,100 in excess of the awards they had made.

Production in the cotton and jute industry of Manitoba for 1928 amounted to \$3,043,413, which is a little more than one-fifth of the total production for Canada.

Kaye Don, British automobile racer, has definitely abandoned his plans for attempting to beat the world's automobile speed record at Daytona Beach, Florida.

Marquis still constitutes more than one half of the western grain crop growing tests of samples taken from forty-eight cargoes of Canadian wheat exported to England in 1928-29 show.

Plans to negotiate a parcel post treaty between Cuba and Canada are being studied by Cuban state department. The treaty would seek to increase the consumption of Cuban products, principally sugar and tobacco in Canada.

Thirty-four dairy herds qualified this year for honor roll certificates issued by the Department of Agriculture. On this basis of this newly introduced system of recognition 13 herds would have qualified in 1927, and 27 in 1928.

## University Students in Canada

56,042 Students Enrolled At the End Of 1928

Students doing work of university standard and taking matriculation courses in Canada at the end of 1928 totalled 56,042 of whom about 29,900 were women. Of the total 40,987 were full time students, 3,813 part time and 11,603 vacation short course and extension students, 361 being duplicates enrolled in more than one category.

There are 23 universities in Canada, of which six are controlled. The total teaching staff of universities numbers 4,078, of whom 3,544 are men and 534 are women.

In all the educational institutions of Canada the enrolment totals 2,342,391, of which 2,064,268 attend publicly controlled kindergarten, elementary and secondary schools.

"Willie, didn't I tell you to shut that shutter?" said Willie's mother. "The shutter's shut," replied Willie, "and I can't shut it any shutter!"

Eight ambulance airplanes now operate through the Sahara Desert.

**Too Much ACID**

Many people, two hours after eating, suffer indigestion as they call it. It is usually excess acid. Correct it with an alkali. The best way is the quick, harmless and efficient way is Phillips' Milk of Magnesia. It has remained for 80 years the standard with physicians. One spoonful in water neutralizes many times its volume in stomach acids, and at once. The symptoms disappear in five minutes.

## Tip For Visitors To Germany

Custom Is To Touch Your Hat To Doorman

A Berlin correspondent says about this business of tipping your hat: "I just saw a German gentleman tip his hat to his chauffeur before he stepped into his car." It was in response to the greeting of the chauffeur who tipped his cap as he opened the car door. Not to respond would have been a discourtesy to the chauffeur.

If you walk out of an ordinary Berlin coffee house the doorman touches his gold braided cap to you and you doff your fedora, hamburger, topper, derby, or what have you. If you don't you're insulting the doorman, the coffee house and the entire German nation, also setting yourself down as a low boor into the bargain.

The Germans are certainly not behind the French in formality. As for kissing the hand, there's lots of it in Berlin. Fully as much as in Paris, which I was always led to believe was the handkissingest place on earth.

However, the hand kissing laurals are apparently neither to the Latin nor to the Teuton. They would seem to belong to the Slav. The Russian seems invariably to kiss the lady's hand—if she be a married woman, by which sign you can always tell the married ones—whether the kisser and kissed be of low or high station.

At least, sitting in cheap Russian restaurants in Paris, frequented by taxi drivers and laborers, I have observed every man jack of them upon entering the place go straight up to the proprietor's wife and exclaiming and deeply bend over her outstretched hand.

Nor are all Russian taxi drivers in Paris prices and generally, rumor to the contrary notwithstanding. Some of them are just taxi drivers.

## Depends On Individual

Statement Of Aristotle Would Not Apply In Every Case

Aristotle says we must have a fair degree of worldly goods; poverty makes one stingy and grasping; while possessions give one that freedom from care and greed which is the source of aristocratic ease and charm.

The truth of this statement depends very largely, if not altogether, upon the individual. There are many examples which will show that, even in the most abject poverty, there is as great an absence from greed as can be found by those who possess much worldly goods. There are many who have much of this world's goods who cling to them instead of sharing with those who have been less fortunate. Of course he who has much of the world's goods, rather than the individual itself, in which case the possession of goods does give an aristocratic ease and charm.

## Along the Frontiers in Manitoba

Manitoba May Develop Salt Water Fishing At Churchill

Manitoba, with Churchill as its seaport, has assumed the status of a Maritime province, and development of an extensive salt water fishing industry is one of the possibilities in the near future. Hon. D. A. McKenzie, Minister of Mines and Natural Resources, prophesied such an industry during an address in Winnipeg. He had been informed by those qualified to speak that there was every prospect of good fishings being conducted on a large scale, with Churchill as the base for the fishing fleets.

## Portage In Prairie Exhibition

At a meeting of the Portage Industrial Exhibition Association the other day, a plan was submitted and approved for the construction of a new building for the housing of fine arts and domestic manufactures. It is hoped to have this building in readiness for the fair this summer.

## WHY SUFFER

FROM YOUR LIVER?

Why be handicapped with unsightly blotches on the face, eyes with yellow tinge and that tired and languid feeling? This indicates a torpid liver. Headache, Dizziness and Biliousness surely follow. You must stimulate your lazy liver, start the bile flowing with Carter's Little Liver Pills. They also act as a mild laxative, purely vegetable, free from calomel and poisonous drugs, small, easy to swallow, and not habit forming. They are not a purgative that cramps or pains, unpleasant after effect following. On the contrary a good tonic. All Druggists 25c and 75c red pkgs.

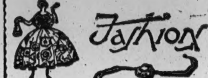

## Southerners Are Anxious To Visit Canada

Opening Of Hudson's Bay Route Has Been Great Advertisement

Thousands of American tourists from the southern states will visit Canada this year as a result of the advertising given the Dominion through the opening of the Hudson's Bay Railway, stated E. A. McCallum, of Regina, who returned to the city after a three months' vacation spent in Mississippi and Alabama.

"Everywhere I found the greatest interest in Canadian affairs," Mrs. McCallum said. "The opening of the Hudson's Bay route has been a tremendous factor in calling attention to the development in this country. Many of these southerners had had an idea Canada was a land of snow and 60 below zero temperatures. Now they want to see this great country which has an ocean outlet at its extreme north."

## Winnipeg Newspaper Union

(By Annebelle Worthington)

3363

A navy blue silk crepe that expresses simplicity and good taste for mature figure.

The circular skirt in wrapped treatment falls in graceful drapes at left-side front, giving the figure charming length.

The hips are extremely flat. The surplus bodice with collarless neckline, shows lingerie influence in white crepe vestee. It's a stunning dress for street.

Style No. 3363 comes in sizes 36, 38, 40, 42, 44, 46 and 48 inches bust. Printed crepe with plain, light weight woolen and crepe marocain appropriate.

Pattern price 25 cents. Be sure to fill in size of pattern. Address Pattern Department.

## Rubber Overshoes For Planes

Lace Over Wings and Prevent Formation Of Ice

Overshoes for aeroplanes—a new method of keeping wings free of deadly ice—were announced at Cornell University, Ithaca, N.Y.

They are a discovery in safer flying announced as a result of "successful tests" in the mid-west.

The overshoes lace over the forward edge of the wing. They are a thin layer of specially vulcanized rubber exuding continually a colorless oil which is the secret of the success. It is announced that the ice does not stick nor the oil "scrub off."

The slipperiness alone is insufficient and so the overshoes have a small hose under their striking edge. A slight pulsation of pump driven air in this hose breaks the ice as it forms on the wing edge, and so prevents air from pressing the forming ice fast against the wing.

## Sodium Sulphite Deposits

Over One Hundred Million Tons Of Natural Hydrous Sulfate Found In Saskatchewan

As a result of investigation made by the Canadian Government Department of Mines, it has been established that the sodium sulphate deposits in the Province of Saskatchewan contain over 100,000,000 tons of natural hydrous sulfate. These deposits have been looked on as of great potential value not only to meet commercial requirements in Canada but because of the possibility of developing important export markets. One of the important uses in Canada is in the pulp and paper industry where large tonnages of the anhydrous sodium sulphate or "salt cake" are used in the production of sulphate or kraft pulp.

## Everybody Satisfied

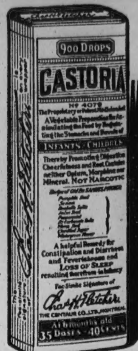

Family Could Enjoy Reading Paper By New Method

The latest invention is a machine which read aloud from the printed page. This should prove a boon to the army of men who have to hurry to work in the morning. They could get their morning paper, set the machine going while they whistle in the bathroom, take it to breakfast and let it run till they bid good-bye to their superior halves at the front door, by which time they would have heard the chief news. Then the paper could be left for the ladies of the household to read the shop advertisements, the social news, etc. The whole house would be satisfied.—Montreal Gazette.

## King Buys Stamp Collection

King George V., who is an ardent stamp collector, has purchased the famous Purves collection of Australian stamps, which was awarded the gold medal at the 1928 international philatelic exhibition at Melbourne. The price is believed to have been two thousand pounds. The collection contains examples of all issues, many of which are unique.

**Children CRY for it**

It may be the little stomach; it may be the bowels are sluggish. No matter what coats a child's tongue, its a safe and sensible precaution to give a few drops of Castoria. This gentle regulation of the little system soon sets things to rights. A pure vegetable preparation that can't harm a wee infant, but brings quick comfort—even when it is colic, diarrhea, or similar disturbance. And don't forsake Castoria as

the child grows older. If you want to raise boys and girls with strong systems that will ward off constipation, stick to good old Castoria; and give nothing stronger when there's any irregularity except on the advice of a doctor. Castoria is sold in every drugstore, and the genuine always bears Chas. H. Fletcher's signature on the wrapper.

## Recipes For This Week

(By Betty Barclay)

### VANILLA DESSERT WITH CHOCOLATE SAUCE

1 package vanilla junket  
1 pint milk.

Prepare junket according to the directions on package. Let stand until firm, then chill.

Chocolate Sauce: Melt 1 square unsweetened chocolate in saucepan, placed in large saucepan of boiling water. Add 1 tablespoon melted butter, and when thoroughly blended, pour on gradually, while stirring constantly, ½ cup boiling water; then add 1 cup sugar. Bring to the boiling point and let boil fourteen minutes with ½ teaspoon vanilla.

### BAKED ECONOMY

Into a well-buttered pan put slices of raw peeled potatoes and a little pepper. Then a layer of uncooked sliced ham. Add another layer of potatoes and ham and pour on this cream sauce (1 tablespoon flour, 1 tablespoon butter, to 1 cup milk). Sprinkle bread crumbs on top and bake in a moderate oven until brown and potatoes are well done. Serve hot. Just enough ham can be used to give the desired flavor, which has the advantage of making a little ham go a long way. For picnics this can be baked at home in a heavy tin dish with a cover and reheated over hot water on a campfire.

Taxes for the relief of the poor have been levied in England since 1573.

Just as it has been for ages work will continue to be the best exercise in 1930.

## Elevator Operators Must Accept Grain

Storage Reservation Not Permitted Under Clause In New Act

Elevator operators are compelled to take in grain submitted to them by farmers when they have accommodation for it under a clause in the new Grain Act, approved by the committee on agriculture and colonization. They are not to be permitted to reserve storage space for customers in advance; but must take in grain as it is offered as long as they have room.

Discussion of this provision raised the question of the discretion of the elevator operator to refuse damp or smutty grain. Some members of the committee thought they should not be required to accept grain unsuitable for storage, thereby tying up storage facilities and preventing the movement of good grain. This question was left to stand over until a section covering it could be prepared and submitted to the committee.

## London's Busiest Woman

Known as London's hardest-working woman, Mrs. Alice Tabrahama, a widow, has just announced that she will retire, after 25 years of public life. In the morning she works as scrubwoman in the offices of the local Labor Party; in the evening she presides over the Edmonton Education Committee or attends the Urban District Council, of which she is a member. In addition she does all her own housework and cares for the children. She says she needs a rest.

## Where Canada Leads

Canada is the largest exporter of wheat among the countries of the world and the second largest exporter of flour, being exceeded only by the United States.

## Make Your Windows Pay

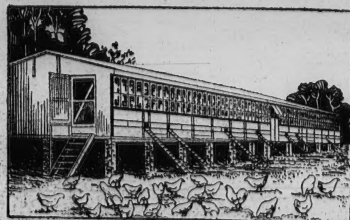

Invest in WINDOLITE Windows and you will be repaid a hundredfold in the health of your Poultry and Live Stock

**WINDOLITE**

THE ORIGINAL GLASS SUBSTITUTE

MADE IN ENGLAND SINCE 1917 ON ORIGINAL PATENTS

This unbreakable glass substitute is light and flexible, easy to cut and fit, will withstand extreme changes in temperature, keeps out cold and wet, but allows the full sunlight to enter, including the health-giving Ultra-Violet Rays, which do not penetrate ordinary glass.

CUT DOWN YOUR LOSSES BY INSTALLING WINDOLITE

Canadian breeders of poultry and livestock are finding Windolite a most satisfactory and profitable investment. Young chickens and turkeys are entirely free from leg weakness and disease and will thrive in confinement under Windolite. Windolite comes in rolls any length, but 36 inches wide only.

### CHAPTER IX.—Continued.

"Not one cent under a dollar seventy-five, Edgar Purdie, and then I'm giving them away. But you needn't feel at all obliged to take them. That Darling girl will most likely snub 'em up. She comes from the city and knows a bargain when she sees one. Maybe you'd better be getting on. It's quite a ride to South Wickfield, and you've got to go back home for whatever it is you're going to—"

"Whoever said I was going to South Wickfield?" burst from the embarrassed dean. He was almost as red as his new tie. "Look here, Grandma Davis, don't you put those heads away. This is a sort of an emergency. Will you take one-fifty, just for the sake of old lang syne?"

"Well," sighed Grandma, "seeing that you're an old friend, Edgar, and that you said this is a—particular occasion, I'll let you have 'em. But you'll have to pay me cash. Giving 'em away like this I—"

"Oh, I'll pay cash!" broke in the dean eagerly. He pulled out a wallet, deposited the amount in Grandma's hand and put the coveted possession into his pocket, buttoning his coat above it for extra safety. "Good-by, Grandma. Seems to me you've done an awful hard bargain, but there's times when it pays to splurge a little. You sure these beads are stylish?" he added, peering; and at the old lady's vigorous affirmative he closed the door.

It was as well, perhaps, that he did not stay longer, for no sooner was he safely off than Charmin and the doctor burst from their retreat in the next room.

"Your granddaughter seems to be in a state verging on collapse," announced John Carter. "I had hard work to restrain her from spilling that shrewd transaction that you have just terminated so successfully. Believe me, Grandma Davis, you would have shone as a horse trader!"

The old lady chuckled, and commented, as Charmin sank limply into the chair recently occupied by her victim.

"I donno when I've had such a good time. I wish now that I'd asked more, and made him come up on his offer slow and painful. When I remember—"

"But, Grandma," interrupted Charmin sternly, though the corners of her mouth twitched upward. "You said you'd ask a dollar, and you asked two!"

"I said I'd make him pay a dollar," corrected Grandma. "Do you suppose, child, if I'd said a dollar in the first place that he'd have given it? You don't know Edgar Purdie like I do. That's why I asked for more. If Luella refuses him this afternoon we'd have had those beads back on our hands come night, or my name's not Davis. You can't tell me any—"

thing about Ed. Purdie, I went to school with him."

"What shall you do with your ill-gotten gains?" queried the doctor, his eyes twinkling.

Grandma looked thoughtfully from the window as she replied: "I suppose I ought to put it in the foreign mission box; but I guess I'll do full as much good helping to pay the milk man. Here, Charmin, you better take it. It's not every day that we make a dollar and a half so easily."

"We might spend it on a wedding gift for the dean!" suggested Charmin, as she arose and took the profits of the nefarious transaction from Grandma's hand.

"Indeed, we shan't!" snapped the old lady quickly. "I gave him a present when he married his first wife, Emma Dodd, as good a woman as ever drew breath o' life. It was a silver sugar spoon, and came from Portland. Emma was real pleased with it; but six months later Edgar made her shins it up and gave it to his second cousin, Eliza Stone, who was getting married over at Templeton. Lizzie Baker was at the wedding and saw it with her own eyes. It was the last wedding present I ever gave to Edgar Purdie, though dear knows I had chances enough as the years passed. Well! Well! We little thought when you asked Jim Bennett to get those beads, Charmin, what a good investment we were making."

"A marvelous investment, consider the fact that Jim paid for the beads himself!" laughed Charmin. "I'm going to ride with him this evening. Grandma, and shall entertain him with an account of your trip 'into high finance.'"

"You better make him promise not to tell," warned the old lady. "If Sarah Bennett got hold of it, the whole thing would be town talk by night, and like as not the dean would sue me for damages—that is, if he could get Gam Gardfield to take the case!"

"Here comes Edward Howe," she added, with a glance from the window. "He's stopped, and is staring at your new office, sonny. You might run out and see if he wants you to help out off a leg or something. And see here! You ask him to stop a minute if he's got time. I want to tell him how I got the better of Edgar Purdie!"

### CHAPTER X.

Two weeks had passed, busy weeks for Charmin, and not devoid of interest. With housewife's instinct she revelled in putting the finishing touches to the young doctor's office. He heartily approved of the Java cotton for the windows; and a letter to his sister in Boston had been fruitful of results in the shape of a rug that brought an exclamation of rapture from the girl when she first saw it.

"Are you a millionaire?" she gasped when she could find her voice.

He laughed.

"Far from it! But neither am I the world's worst spendthrift, as you might think. This happens to be one of the treasures that fell to my lot when my mother died, and the old home was broken up. It's a Bokhara, and blends with those hangings as if it were made for them. doesn't it? And behold, fair lady, my sister's donation to my new quarters! Aren't they stunning?"

He held aloft a pair of beautiful brass candlesticks, while Charmin exclaimed again. They were in the office, the door wide open to let in the summer sunshine which fell across the shining brass as the girl reached for the treasures, and set them on either end of the old mantle.

"I feel that Aladdin himself must be occupying the room where Grandma once kept her 'hired help,'" she remarked whimsically. "All you do is to drop a letter in the Wickfield post office, and lo! rare tapestries and antique brass descend upon us! Have your wishes always been granted with so little effort?"

To her surprise the doctor took her question seriously. He was looking down at the rug, and then raised his eyes he saw that her careless words had struck some chord that hurt him.

"Up to a certain age, I suppose they were," he replied thoughtfully. "And yet, the possession of this rug, for instance, is not without a twinge of heartache. It means—my having it at all—that I no longer have my parents—that never again shall I see it in its accustomed place in the big living room at home! It brings up memories that hurt, you see, even though I love them."

"But it is wonderful to have those memories," she said, laying an impulsive hand on his.

He squeezed her hand, and responded cheerfully: "Of course it is! But the first glimpse of that old rug brought everything back, and gave me a silly lump in the throat for just a minute. Really, it looks corking, doesn't it? And it was like sis to send the candlesticks. Does the place suit you, Mistress Charmin?"

"Isn't it more to the point to ask if it suits you?" laughed the girl as she wiped some dust from the old mantle.

"You know without the asking. It's perfect; and, thanks to your feminine touch, even the waiting room looks livable."

"Those thanks are really due to the wicker chairs you sent for," she corrected. "Yes, I'm satisfied. It looks—Why, here's the doctor!" she broke off suddenly. "Come in, Doctor Howe, and pass judgment on the finished product of our labor."

The old man stepped inside, looking about with shrewd, appraising eyes. "Not much like my first office," he commented. "It was a room over the old drug store, hot as blazes in summer, and proportionately cold when the snow fell. You're a lucky man, John Carter, with a place like this, and Charmin Davis to look after you!"

"I realize that," responded the young M.D., with a glance at Charmin that brought new color to her cheeks. "At least, I shall have a pleasant place to cool my heels in while waiting for the trusting public to employ me. Do you want my company this morning, sis?"

"That's why I stopped. I need your young enthusiasm to throw light on a case that's been bothering me for weeks. Want to go with us, Charmin? It's a beautiful morning for a ride."

The girl looked longingly through the open doorway, but answered: "I couldn't, really. I've a thousand and one things to do this morning. What time shall you be back? If a patient appears in your absence, Doctor Carter, I'll keep him here if I have to sit on him!"

"We'll be back at noontime," chuckled the old doctor; and as they started John Carter turned to wave farewell to the girl who stood in the doorway of his new office.

Charmin waited there until the shabby car vanished down the clashed street, then turned back to the room behind her, looking down at the Oriental rug with eyes that drank thirstily of its beauty.

(To Be Continued)

Strangled With Asthma is the only expression that seems to convey what is endured from an attack of this trouble. The relief from Dr. J. D. Kellogg's Asthma Remedy is beyond measure. Where all was suffering there comes comfort and rest. Breathing becomes normal and the bronchial tubes completely cleared. This unequalled remedy is worth many times its price to all who use it.

### New Land Map

The Department of the Interior has issued a new edition of a land map which shows at a glance the number of quarter sections of Crown land still available in each township. The map also indicates Dominion Land Offices, existing railway facilities in each district and provides the customary information regarding cities, towns and villages.

Hibernation is as common among spiders as among bears.

## YOUNG WIFE STRENGTHENED

After Taking Lydia E. Pinkham's Vegetable Compound

Bancroft, Ontario—"When I first took Lydia E. Pinkham's Vegetable Compound, I had been married about a year and my strength was leaving me on account of my condition. I was only 19 and it was my first child. My mother told me I needed something to steady my nerves and a girl chum told me to take the Vegetable Compound. I am so thankful I did because it strengthened my whole system and now I feel perfectly well and have a sweet little baby boy."—Mrs. J. B. STANLEY, Bancroft, Ontario.

### Your Skin In SPRING Needs ZAM-BUK

Quickly soothes Irritation & Soreness. Removes Freckles, Blemishes, Eruptions, etc. See all Dealers.

### Paintings Are Carefully Kept

Canadian War Memorial Pictures In Fire Proof Room at Ottawa

When construction of a new national gallery building is undertaken, provision will be made for the proper housing and display of the Canadian war memorial pictures. This was the answer given by Hon. J. C. Elliott, K.C., Minister of Public Works, in the House of Commons to a question raised by Col. Thomas Cantley. The Canadian national war memorial pictures, except those which now adorn the walls of a fire-proof storage room, specially prepared under the supervision of the National Gallery officials, in the Auditorium Building in Ottawa.

The pictures, said Mr. Elliott's answer, are completely protected from any damage due to dampness or any other unfavorable atmospheric conditions. They are not, at present, under view but can be examined by special arrangement.

The pictures referred to have an estimated value of over \$1,000,000. They were acquired by Lord Beaverbrook's committee during the war and presented by that body to the Canadian people. They are paintings, etchings and pastels of every phase of Canadian war effort, undertaken by many of the most outstanding contemporary artists. For the past ten years this collection has been stored from view due to lack of suitable accommodation.

## KEEP THEM HAPPY BY KEEPING THEM WELL

It is natural for children to be happy, active and full of fun. When they are fretful, fussy and disinclined to play you may be sure something is wrong. Almost invariably that something lies in the digestive tract.

It is to meet the need for an absolutely safe corrective of childhood ailments that Baby's Own Tablets have been designed. They gently regulate the stomach and bowels and rid the system of all indigestion; break up colds and simple fevers and allay teething pains. Concerning them Mrs. W. E. Forrester, Dover, N.E., writes:—"I would not be without Baby's Own Tablets as I know of nothing to equal them for fretful, fussy babies who are troubled with colds or sour stomachs."

Baby's Own Tablets are sold by medicine dealers or by mail at 25 cents a box from The Williams' Medicine Co., Brockville, Ont.

### Was Money In Pocket

How Ikey Turned Bad Investment Into Paying Proposition

Abe owned a well known race horse, for which Ikey offered him \$10,000. Abe accepted the offer and the course, promising to send the horse next day.

Overnight, however, the horse died. But Abe could not bear to lose his bargain, so he cashed the cheque and sent the horse.

He heard nothing further, and did his best to avoid Ikey. Unfortunately the day came when they met face to face. Abe took the bull by the horns and asked Ikey what had become of the horse.

"Well," said Ikey, "even I found it was dead, seeing that everyone knew it was a vanderbilt horse it was, I raffled it and twenty-five people bought tickets at \$500 each."

"But," said Abe, "didn't anyone grumble?"

"Only the man who won it," replied Ikey, "so I gave him my money back."

### Gardening For The Blind

The British Guild of Blind Gardeners urges gardening instruction for all sightless children. Blind gardeners can prune fruit trees, sow seeds and thin out vegetables.

The Manitoba hydro electric power development program for 1930 calls for an expenditure of \$2,000,000 on extending transmission lines into rural areas.

Douglas' Egyptian Liniment is without a rival. Stops bleeding instantly. Astringent, soothes and prevents blood poisoning.

Mrs. Williams—"Oh, Jane, how ever did you go and break the vase?" Jane—"I'm sorry ma'am. I was accidentally dusting it."

Minard's Best For Grippe.

### Future Of Television

Great Possibilities Are Foreseen By Earl Of Clarendon

The Earl of Clarendon, former chairman of the British Broadcasting Corporation, foresees "staggering possibilities" for television. He says: "When it is possible to present a stage play or a national event such as the Derby on a small screen which a family or perhaps a small audience in a hall can see, then television will go like wildfire."

While we have some distance to travel before that goal can be achieved enough progress has been made to suggest that it may be attained within the next few years.

### Little Helps For This Week

"God is our refuge and strength, a very present help in trouble."—Psalm xlv. 1.

Console thyself with His word of grace,

And cease thy wail of woe; For His mercy never an equal hath, And His love no bounds can know, Lean close unto Him in faith and hope.

How many like these have found In Him a shelter and home of peace, By His mercy compassed round!

Where but in These have we a covert from storm, or shadow from the heat of life? In our manifold temptations Thou alone knowest; and art ever nigh; in sorrow Thy pity revives the fainting soul; in our prosperity and ease it is Thy Spirit only that can wean us from pride and keep us low.—James Maitland.

### Minard's Will Stop That Toothache.

#### Will Be Paying Guest

Graf Zeppelin To Pay, For Use Of Lakehurst Naval Base

The Graf Zeppelin hereafter will be a paying guest when it visits the United States. During its forthcoming stay the German ship will be quartered at a rate of \$2,000 a day in the big "hotel" at Lakehurst, N.J., naval base.

Other items on the bill include: \$3,000 for preparing the base, \$1,000 a day for keeping the base in readiness, dating from the hour of the expected arrival, and \$50,000 insurance. A deposit of \$15,000 covering all charges, will be exacted. It will be the first time the government has ever levied a bill against any foreign aircraft for accommodation at a U.S. naval base.

Judge—"You admit smashing the chair on your husband's head?"

Accused—"It was not my intention."

J.—"You did not want to strike your husband?"

A.—"Yes—but I did not want to break the chair!"

## Treat Colds 2 Ways

With One Treatment

RUBBED ON throat and chest, Vicks does two things at once:

- (1) It is vaporized by the body heat and inhaled direct to the inflamed air passages, and
- (2) It stimulates the skin like an old-fashioned poultice and "draws out" the soreness.

**VICKS**  
VAPORUB  
OVER 15 MILLION JARS USED YEARLY

### Two-Way Television

Speakers See Each Other Through Device On Telephone

The curtain velling the telephone of the future was jerked aside in the first practical demonstration of a two-way television by the American Telephone and Telegraph Company.

Users of the device, described as the "Inconophone," looked each other directly in the eye as they conversed, two and one-half miles apart.

It was a demonstration of the progress in approaching the day when it is hoped to be able to see the person at the other end of the telephone lines.

## Minister, Run-Down In Health, Gains 7 lbs. in 3 Weeks

Rev. W. H. Taylor writes: "After a 7 weeks' revival campaign I was entirely run-down and losing flesh rapidly. I decided to give Ironized Yeast a 3 weeks' trial. After 2 weeks I found my strength returning and the tired feeling gone. In 3 weeks I had gained 7 lbs. and was myself again."

Imagine just 3 weeks to change from a "skinny" tired person to a strong, well-filled-out man or woman. Ugly hollows vanish. Broomstick limbs become round and chubby. Tired feeling disappears. Blended skin clears.

Only when yeast is ironized is it more effective—for iron is needed to bring out the weight-building and strengthening values of Yeast. Pleasant-tasting tablets. Safe for everybody. Never causes gas or bloating, no harmful drugs.

Go to any drugstore today and get a full size treatment of Ironized Yeast. If after this generous trial you are not delighted, your money back instantly from manufacturer.

## J. C. McFarland & Co.

### Three New C. P. R. ships

Three of the latest ships built for the Canadian Pacific Steamships are now being fitted out at the dock of the Fairfield Company, Govan, Scotland. Right is the Queen of the Pacific, the 26,000-ton Empress of Japan and left is the Princess Joan and the Princess Elizabeth, destined for the British Columbia Coastal service. They will all be in service from British Columbia ports this season.

### Main Street

Miss Olive Rush and Miss Congdon spent the week end in the City. Mrs. Carl Soniff and children returned Wednesday after spending a week with friends at Vilna, Alta.

Commencing May 7th, the Irma merchants will resume their usual Wednesday half day holiday for the summer months.

Miss B. Wilson, spent the holidays in the City returning to Irma Monday.

Mr. Arthur Massie of Fabian has leased the East half of Section 36-46-9-4th for 3 years from Mr. J. H. Elliott, and is moving on the same.

Mr. A. White and R. Keely, spent the week end in Edmonton and intervening towns.

Irma Ladies Aid met at the home of Mrs. Simmons, Sr., Thursday afternoon.

Mrs. F. T. Cook, accompanied by her two youngest children is visiting her sister, Mrs. J. R. Geeson, for the Easter holidays.

Thursday Mr. N. B. King was not doing as well as expected. Mrs. King left Thursday night for Edmonton to be with Mr. King.

Commencing May 7th Irma merchants will commence holding the usual Wednesday afternoon holidays during May, June, July and August.

Irma I. O. O. F. will hold divine service in the United Church Sunday evening. All Oddfellows are requested to meet at the Lodge Rooms and march to the Church.

Seeding of wheat is practically completed in the Irma district. The early sown wheat is showing above the ground but more rain is badly needed to sprout the later sown grain.

A boxing match will be held at Irma, May 3rd, between Curly Kid of Irma and Gus Wahl, of Hay Lakes. Wahl has a good reputation and the bout will no doubt be keen.

Jim Peas opened the Ice Cream parlour Saturday afternoon but so far the weather has not been favorable to ice cream. A new stock of confectionery and soft drinks has been secured.

Mr. W. E. Street of Sedgewick has purchased seven quarter sections of land N. E. of Irma, through Whyte & Co. of Edmonton. The land consists of all of Section 7 and the N. half and S. W. quarter of Section 15-47-7-W4.

Mr. M. Gonuwka, of Edson, Alta., has purchased the West half of Section 27-47-8-W4 and intends improving same. This is part of the Mayer property Northeast of Irma and is being handled by Whyte & Co., of Edmonton.

Mrs. Cavana and her three daughters, of Calgary, returned Thursday after spending a week with Mrs. Smart in the Sunny Brae district. Mrs. Cavana was a friend of the Smarts in Scotland, before they came to Canada.

The play put on by the Richard Kent Stock Co. last Friday night was well presented. While the attendance was not large we believe everyone attending was well pleased with the show. Another play will be presented May 16th by another company of Richard Kent players.

Monday the neighbors of Mrs. Thomas Rome, of the Roseberry district, turned out and completed the seeding the wheat on the Rome farm. There were six drills and four sets of harrows working on the land at the same time and the 75 acres of wheat were soon sown. Among the neighbors assisting were J. Carrington, W. M. Walker, Jake Darling, Chas Savard, W. H. Morse, Ed. Bunderman, Newt Horning, Allan Harper, Seth Oldham, Taylor Atkinson and George Yonker. Others had intended helping with the seeding but did not know of the bee till the job was completed. Mrs. Rome expects her brother from the East will be here to assist her with the farm as soon as he can arrange to come.

Monday afternoon Mr. P. J. Hardy met with an accident that will lay him up for some time. He was ripping some well curbing in the lumber yard when an old mitt he was wearing caught in the saw drawing his right hand across the fast revolving saw which cut a bad gash across the back of his right hand. Dr. Greenberg dressed the cut and had Mr. Hardy taken to the Wainwright Municipal hospital where he had an X-Ray taken of the wound and finished dressing. The Doctor thinks Mr. Hardy will eventually have the use of most of his fingers but it will be some time before he will be able to use his hand for any heavy work.

Have you some piece of machinery, a set of harness, a buggy, or some other farm implement, for which you have no further use; but which might be of value to someone; or do you wish to trade or buy one of the above articles? Use classified ads, they usually get results and are an inexpensive way of buying or selling used articles.

## Do You Drive a "Four" or a "Six"

### SIX CYLINDER CARS

There are about 800 explosions in each cylinder per minute, at 30 miles per hour in a "Six". If you drive a "Six" four hours a day, all week, there are over 8,000,000 Explosions!

### FOUR CYLINDER CARS

There are about 800 explosions in each cylinder per minute in a "four". If you drive a four about four hours each day, seven days a week, there are over 5,000,000 explosions.

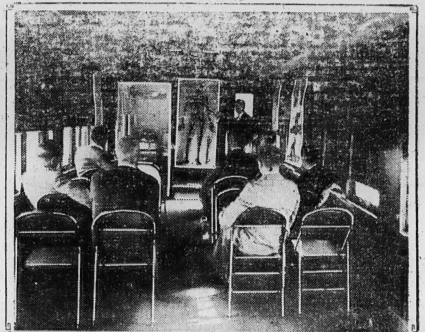

The red hot hammering of these millions of explosions warp the valves, maybe burn them, and fading motor power can be traced more often to old-worn-warped-burned-leaky valves, than to any other cause.

**OUR VALVE AND SEAT RECONDITIONING WILL RESTORE THIS FADING POWER THAT SHOULD BE REACHING YOUR DRIVE-SHAFT.**

"Ask About Our Free Valve Inspection"

## IRMA MOTORS

### FIRST AID SCHOOL ON WHEELS

With a view to extending adequate First Aid instruction to its employees in the outlying sections of the system, one of the three new First Aid cars which have just been completed for the Canadian National Railways has been placed in the Western Region for service. Fully equipped and in charge of a competent instructor, the car will travel to outlying points, bringing courses of instruction to engine men and train men, agents and construction and maintenance of way men who have ordinarily no means of obtaining this knowledge. While their primary use is for instruction, they are, as well, travelling stations ready to assist in emergency, and are the first cars of this type to go into service on a railroad in Canada.
